

*Join us in Windsor, England for two-days interactive
'Expert to Expert: Epilepsy' lectures and discussion
with other paediatric neurologists*

GENERAL INFORMATION

Expert to Expert: Epilepsy (previously called PET3) has been designed primarily for paediatric neurologists but would also be relevant to paediatricians who are providing tertiary epilepsy services.

These courses aim to cover the whole spectrum of childhood epilepsy over a 4-year period. This seventh course will be a series of updates, controversies and workshops covering the themes of: epilepsy surgery, neonatal seizures, status epilepticus and EEG.

As well as didactic lectures from an eminent international faculty including Philippe Kahane (Grenoble), Kees Braun (Utrecht), Lieven Lagae (Brussels), Geraldine Boylan (Cork), Matthew Walker (London), there will be a formal debate and small group workshops and a session devoted to 'Hot Topics' (chosen in the six weeks before the course). The emphasis of the meeting will be on discussion and participation of delegates.
